Comments	<input type="text" value="I would be in support as a football fan, but also as a local I would want to ensure that the infrastructure can cope with the traffic volume. I don't think Water Eaton is large enough to sustain stadium parking in its current state and would hinder leisure trips to London by train at the weekend on match days. If the car parking could be extended- or a multi storey provided this would ease parking concerns particularly for Kidlington residents."/>
