<b>Comments</b>	<input type="text" value="I object to the proposal to build a stadium on the edge of Kidlington for multiple reasons. It is on an area of Green Belt land and we have a duty to protect the wildlife and preserve green spaces for the sake of the environment and the people who live by there. Additionally, Kidlington is a village and does not have the appropriate infrastructure to deal with yet another stadium. The suggested road closures for fans parking are severely short sighted: both the roads and Oxford Parkway cannot manage the influx of traffic, which will make the roads more dangerous and the inevitable overflow will affect Kidlington and it's inhabitants. The land is also prone to flooding, which is hardly suitable for building a large stadium!"/>
