Comments	<input type="text" value="The size and nature of the football stadium development is not in keeping with the location nor with the Local Plan/planning for the green belt. It will dominate the local area, cause problems for local residents in the form of road closures and draw even more cars to an area already choking with traffic. It will destroy the local habitat and in spite of promises to the contrary, the biodiversity would be much better maintained and improved by the absence of a football stadium. The reasons for OUFC leaving the Kassam remain unclear and unconvincing and the reasoning changes periodically, none of which is reassuring in terms of local democracy."/>
