| Comments | <input type="text" value="I firmly support the stadium proposal. It is imperative that Oxford's sole professional sports team receives the necessary support to construct the stadium. I have been a loyal supporter of the team since the age of six and have traveled extensively throughout the country to support them. The club has pledged to construct the greenest stadium in the nation. It will provide assistance to both the local and broader communities. It will generate employment opportunities. It will serve as a catalyst for tourism growth. It will guarantee the survival of Oxford United Football Club. The opposition's objections to the stadium proposal are largely unsubstantial. For instance, there will be temporary road closures on only 14 days of the year to guarantee the safety of pedestrians. I cannot overstate my unwavering support for this stadium proposal. Rejecting it would result in the demise of a football club, its supporters, and the community as a whole."/> |
