<b>Comments</b>	<input type="text" value="It's vital for the survival of Oxfordshires only professional sporting team that the stadium goes ahead.&lt;br/&gt;The stadium will be the most eco friendly in the country, the site has fantastic transport links, will use 100% renewable (some self generated) power and will be something Oxfordshire will be proud of. It will also benefit the local community in terms of employment, first class sporting and conference facilities and economic benefit to local businesses. Without the go ahead the club will become homeless in 2026 and almost certainly go out of business, please support the club in this venture and help secure its future for future generations."/>
