Comments	<input type="text" value="There are many economic reasons for building a new stadium. For our family, these are secondary to the social reasons. For generations, our family have supported the club, from the manor ground to the kassam stadium. Once at top tier club, financial woes and no permanent stadium have meant we've been battling to get back to the top two leagues of English football. Owning our own stadium secures that community which means so much to us. The triangle location is ideal for many fans for commuting, with accessible transport links via the train station and A34. Holding up the building of our new stadium puts our community at risk. I strongly urge the council to cooperate with the club to make our dream happen."/>
