Address	<input type="text" value="29 Woodgarston Drive,Hatch Warren,RG22 4YL"/>
Type of Comment	<input type="text" value="Support"/>
Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="Please, please, please help secure the future of OUFC by approving their application for a new stadium. It looks brilliant and has obviously been designed by experts who have experience in including all the modern day requirements like ease of access by public transport, consideration for the environment and nature conservation including planting trees. I live an hours drive away from the current stadium but it takes over two hours by public transport which is impossible to do for evening games so I have to drive but I will be able to get to and from the new ground easily by public transport so I can leave my car at home. The new stadium is a fantastic opportunity for the whole county but particularly for the young people of Kidlington who will have their pitches at Stratfield Brake maintained by the football club at no expense to the local council. It is an excellent use of a piece of wasteland and being of a modest size will have no discernible effect on the green belt as the infrastructure of roads, railway station and large capacity car parks are already in place. I look forward to it being built as soon as possible."/>
