Comments	<input type="text" value="I support the new stadium and the excellent state of the art facilities it will bring to Oxfordshire. It is imperative that the decision is made in favour otherwise Oxfordshire will lose it's only professional football club. As the name suggests the club unites people across the county. It is a major part of many peoples lives and has been for generations of Oxonians. It also provides extensive and highly valuable outreach work for a huge demographic of people.

The stadium will be fantastic for the local economy, provide hundreds of jobs and help local sports clubs. It will be incredibly green and leave a much smaller carbon footprint than the current stadium that the club must leave. It is creating many ways for supporters to leave their cars at home and travel via public transport. This is a fantastic opportunity for the county!"/>
