Comments	<input type="text" value="I'd like to support the stadium application. As a professional in the Environment sector I couldn't be more convinced of Oxford United's sustainability plans and credentials. If given the go ahead the plans and stadium will be market leading in sustainable sporting infrastructure. Furthermore as an academic and trained Ecologist I believe their plans for creating habitat, sustainability features and protecting habitats and species for Biodiversity Net Gain will further enhance their project proposals and the local area. The plans to incorporate sustainable travel as well as Biodiversity is providing a blue print for Ecological and sustainable Sustainability centre for excellence. Please give permission for the stadium."/>
