Name	<input type="text" value="Ian"/>
Address	<input type="text" value="46 Hanson road, Abingdon , Ox14 1yl"/>
Type of Comment	<input type="text" value="Support"/>
Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="Oxford United football club is the only full time professional club in the great city of Oxford. From reading the proposed plans for the area they wish to develop, I would like to put my support for this project. It is not just a football stadium it will be a development that will give many jobs and facilities to local people of Oxford. A city as well known and as big as Oxford should have sporting and recreational facilities that stand out from others and this stadium/development will do that. Sustainability is at the core of the construction and running of the facilities. The location will allow for less cars going to the area as public transport will be improved and made very accessible for all attending events. It will also allow local businesses to thrive with more visitors to the area which will lead to more opportunities for local people. From a football point of view, Oxford United has provided so much joy to people for generations. Families come together for matches and life long friendships are formed. Many people only have football to look forward to, to keep them going, give them a purpose and the club recognise this with the work they do with the local community and this project would allow them to increase that. The stadium project is key to keeping the club, the people and sport of the city, so I would like to put my full support behind this development."/>
