Comments	<input type="text" value="Hi CDC,

I support the new stadium build for OUFC at the triangle site, OUFC do so much for the oxfordshire community on so many levels, they are dedicated to all community needs for so many people people with mental health, disabilities, old/young, women's/girls football, grassroots football and so much more. The new stadium would create lots of jobs for people around the area, OUFC will improve the much needed sports pitches across the road in stratfield brake.. rugby, grass roots football, cricketetc all paid for by OUFC owners and this will allow councils to put money in to kidlington and surrounding areas.. the stadium will be eco friendly with new trees planted around the area.. being so close to the trains and park/ride sites can only improve oxfords emission levels around the county. If the club do not get this permission then so many 100's - 1000's of people will be effected in the community from the clubs possible non existance from being homeless with no stadium.

Thank you for listening
