Comments	<input type="text" value="I do not agree with the proposed plans to build a new stadium at The Triangle in Kidlington. I am very concerned that at a time when we should be doing more to protect the environment, we are destroying more of the much needed greenbelt and biodiversity.

As a resident, living not far from the site, I am worried about future flooding and traffic chaos that is very much likely to occur as a result of the new stadium. Noise levels and traffic pollution will also increase, reducing the quality of life for my family including our young children.

I strongly believe that the environmental costs far outweigh any potential benefits. Especially as there is already a site available (Kassam)."/>
