Comments	<input type="text" value="Environmental impact to big on such a small site this is condemning a lovely green space to a concrete carbuncle the sit is to small for a club who has any ambition to be successful. No confirmation of car parking for miles around except residents streets traffic will be grid locked as far back as the A34 as we all really know very few people use public transportation unless you can lay on 100 busses and 10 trains an hour all for free. Completely unacceptable to build on this land while so much other building work and even a golf club closing in 2025."/>
