Comments	<input type="text" value="As a Kidlington resident I object on the grounds of increased traffic and hence negative effect on the environment plus impact on safety of all in the vicinity at match days. I object on grounds of health and safety, closing the road at start and end of matches will seriously effect traffic flow particularly of emergency vehicles- the route is the major route to John Radcliffe from the ambulance station and is also heavily used by fire service, police - response times with affected, putting lives at risk. I object on grounds of why should a commercial business have a right to disrupt the lives of everyone in the area, trying to get on with their own lives, by shutting a main access route to and from the city? It was hard enough to get permission to close a cul de sac for a coronation tea party so why should we put up with this on the whim of a commercial business?"/>
