| Comments | <input type="text" value="I object to the proposed new stadium on the grounds of overdevelopment. With the already approved new housing developments on the fields and golf course in that area, losing more green belt to a stadium and other commercial buildings I feel is just too much in such a compact area. Also, I thought that the 'Councils' overall plan was to reduce cars on the roads? This plan will only make the traffic situation very much worse particularly on match days! As for closing Oxford Road on match days, that is the most selfish and ridiculous idea of them all. Just think of the disruption to buses and emergency vehicles, (not to mention the general public trying to get into Oxford) trying to get through the undoubted jams that will be caused on Frieze Way, at Pear Tree roundabout, the A44 Sunderland Avenue and onwards? If Oxford United have 150 million to spend on a new stadium, why don't they use that funding to buy their existing ground and upgrade that instead? They already have the great travel arrangements in place for that site?"/> |
