Comments	<input type="text" value="I have serious concerns about the stadium plans. The additional traffic this will inevitably cause will result in severe disruption for local residents, and for those wishing to use the Park and Ride to visit the centre of Oxford. No workable plans have so far been offered for dealing with the influx of fans on match days, and the suggestion that this might be handled by closing the road which runs past the stadium is, to say the least, highly counterintuitive. (You don't avoid disruption by causing more disruption.)

Building a stadium would also result in the loss of valuable green belt land, further eroding the green gap between Oxford and Kidlington, and destroying a wildlife habitat. Much has been made of the plans for a sustainable stadium, but the most sustainable option is almost always to continue using existing infrastructure, rather than to build from scratch."/>
