Comments	<input type="text" value="I very much support the proposal to build the new Oxford United stadium on this site. I first saw Oxford United play at The Manor in 1972 with my Grandfather, a huge U's fan, and I have followed them ever since. I feel the development will not only elevate the level of football in the Oxford area but will also provide countless benefits for the local community as a whole. Providing a venue, available to the wider community, for education, football, recreation as well as other sports will give a huge boost to Kidlington as well as the surrounding areas, and would be of great benefit to the generations that follow. I wholeheartedly recommend the passing of this application."/>
