Comments	<input type="text" value="I have a number of objections to building a new stadium on this green belt site. The only reason that this move is being discussed is because the owners of Kassam stadium and Oxford United cannot come to a satisfactory commercial agreement. A very weak excuse to wreck more green belt which is the habitat of much wild life. I shop regularly at Sainsburys at the week end. I also need regular access to my chemist,The Parade and to get to Beaumont vets. This project will cause major traffic problems and diversions. Local parking will be impossible. Traffic at the Banbury and Wolvercote roundabouts will also be adversely affected. All this extra slow , standstill traffic will seriously increase air pollution which is already higher than legal limits. All in all an unnecessary development destroying the environment for the local community."/>
