Comments	<input type="text" value="This stadium needs to be stopped!
On their application it states that they will shut the road to the city centre during home games, this will have a significant impact on traffic and us residents of Kidlington trying to get out of Kidlington, if us residents are told to use another way of getting out of Kidlington it will end up in us using more fuel which isn't good for the environment.
There will be an immense impact on wildlife with habitats being destroyed as a result of the stadium.
There will be less green belt available and there are already plans to build houses in Kidlington.
How are I supposed to access the hospital when the roads are closed, my only needs of getting around is by bus as a result of my medical condition!
There will be more carbon emissions, leading to pollution"/>
