Comments	<input type="text" value="I am writing to express my support for Oxford United Football Club's stadium plans. As a resident of Oxford and a fan of the team, I strongly believe that this project will bring significant benefits to our community.

A new stadium for the club would not only provide a modern and improved match day experience for fans, but it would also act as a catalyst for economic growth in the area. The construction of the stadium and the associated facilities would create jobs and provide a boost to local businesses. In addition to the economic benefits, a new stadium would also have a positive impact on the community. The club has a strong history of engaging with and supporting local organisations and charities, and a new stadium would provide an even greater platform for these activities to continue. Alongside my normal job, I work in grassroots football as a coach and have seen the impact the football club has right down to the lowest levels of the game. It provides children with inspiration to represent their hometown.

This is an opportunity to bring significant benefits to our community and I hope you will join me in supporting it."/>
