Comments	<input type="text" value="I object most strongly to the proposed road closures associated with the proposed new Stadium.
The proposed closures, resident parking permit scheme and the associated traffic chaos is unwarranted when there must be more viable alternatives.
The idea that a large percentage of fans will travel by public transport and or cycle is a nonsense. Human nature being what it is people will use their cars and park anywhere. You only have to look at the area around the Kasam stadium on a home game day.
I do not believe the concerns of the locals closest to the noise and traffic chaos that will ensue are being taken into consideration."/>
