Comments	<input type="text" value="I would like to follow up on the support of this project offered by OxVox and it's near 2,000 members by saying that Oxford United have done a fabulous job in creating a design that will not only sit well in its surroundings but add biodiversity, cycle and walking links and open a previously unloved and inaccessible piece of scrubland into a useable space. As a property and business owner in Kidlington I for one fully support the stadium application and welcome the benefits in both investment in the area and in the creation of much needed community space that can be used by all, as well as the help offered in improving facilities on the Stratfield Brake playing fields."/>
