Comments	<input type="text" value="As a lifelong supporter of Oxford United FC who has travelled from outside of Oxfordshire for home games for over 20 years, the importance of this project to the club and the community that is supports cannot be understated. However, most pertinently to Cherwell, this project would enable people like myself to travel to the game via public transport, a method that is not feasible at the current ground (regardless of the fact that the current situation at the Kassam Stadium is untenable). I struggle to understand the downside of utilising currently unused and inaccessible land to introduce state of the art facilities to Kidlington, particularly when this would create jobs and a valuable community asset at the expense of people other than the taxpayers in the area. As somebody with ties to the Banbury/Bicester area, a development such as this would make an area such as Kidlington a much more appealing place for me to move to when I do return to Oxfordshire, as the long-term benefits that I see this bringing to the community are unlike any other town/area in the county."/>
