Address	<input type="text" value="12 The Daedings,Deddington,Banbury,OX15 0RT"/>
Type of Comment	<input type="text" value="Support"/>
Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="I support the application for a new Stadium. Oxford United football Club have been at the heart of the Oxfordshire community for decades and if this stadium is not built we will be losing our only professional football club in the county and all the benefits it offers to the community. There are NO options left. I believe this application will offer Oxford United a future as a football club but also allow them to continue their far reaching well publicised community work across the county. I believe this site is ideal as it is removed from urban development, close to transport links and the plans are sympathetic to the local community and the local flora and fauna. This site will allow easy access to fans using more sustainable transport, I and many other local fans would catch a bus from Deddington/Banbury. I have been to many matches at other larger clubs with tens of thousands attending. These stadiums are often built in tight urban conurbations with busy roads to cross and limited parking....yet THEY manage to host games and events with no incident. Controlled pedestrian crossings work, cause little inconvenience to road users and are safe. This is an opportunity to provide a home for one of Oxfordshires prized assets and also reduce the carbon footprint. I urge you to support this application and allow this 130 year old institution which provides physical and mental well being to thousands across the county to prosper and thrive on a site that is ideal for the above reasons."/>
