Comments	<input type="text" value="I'm very much in support of the application for many reasons, including:

The benefit to the community in terms of green space, activities that support health, wellbeing and education across Oxfordshire, including improvement to the Stratfield Brake sports facilities.

Much needed jobs and investment to Kidlington and the area.

It would be a modern, environmentally friendly stadium with good environmentally friendly public transport links, as opposed to the transport havoc and environmental damage caused by supporters having to drive to Kassam stadium.

In addition, the area's biodiversity would actually improve through planting of new trees and plants."/>
