Comments	<input type="text" value="Oxford United are vital element to the county as a whole and I wholly support this application. They provide both an economic benefit and pride in the fantastic county we live in.

This area of land adjacent to the A34 and the railway lines presents a fantastic opportunity for a new stadium. It is connected in a way that can really make travelling to the stadium by alternative routes other than car much easier than the present location.

The sustainable designs are attractive and well considered.

The proposal will bring economic benefit to neighbouring towns and villages notably Woodstock and Kidlington."/>
