Comments	<input type="text" value="I have supported Oxford United since I was five years old when my Dad took me to the Manor Ground. I took my own son to see them at their current ground when he was a few months old. Oxford United means a lot to me and my family, we have followed them through the good times and the bad times. Through no fault of their own and because of the greed of their current landlord OUFC will be homeless in two years time this cannot be allowed to happen. OUFC has been around for 130 years, it is more than just a football club and does so much for the community. It really is a community asset. The new stadium site will be much easier to get to for the majority of fans. At the moment I have to use a car to get to the current ground because public transport would take me almost ninety minutes to get to the ground. If and when we get the new stadium I will use the train and I know this will apply to so many fans around the county. Please say yes to planning permission otherwise this great institution will die.
