I'd like to register my support for the proposed new stadium at the 'triangle' site. I think it will bring much needed sporting facilities to the city of Oxford and should help boost the local economy.

I'm pleased to see that the proposals follow the local plan and governmental policy. It is exciting that it prioritises non-car based transport, as well as addressing issues of biodiversity and flood prevention.

Having grown up in Oxford and with many strong connections to the city, I know the incredible importance that Oxford United football club has to many thousands of people. The new development would help secure their future, which I feel is incredibly important to the city.

Regards,
Toby Pear"/>
