Comments	<input type="text" value="I wish to object in the strongest possible terms to the damage to the environment that will be caused if the proposal to build a football stadium on the triangle of land at Stratfield Brake goes ahead. Matches at a football stadium will create noise that will be intrusive for the many residents of South Kidlington. Parking will inevitably create disruption in the area, and the proposal that the main road into Kidlington and North Oxfordshire will have to be closed before and after games, will add huge traffic problems to an already overloaded network. Above all, the woods around the triangle have been identified as Ancient Woodland, an irreplaceable area of unspoilt land; this green resource is vitally needed to compensate for the huge building projects already underway in 'Oxford North'."/>
