Comments	<input type="text" value="I would like to strongly add my support for the project at trhe Triangle near Kidlington for two main reasons:

1. It would be of great benefit to the immediate area of north Oxford and Kidlington in terms of employment in both the short and long term. It would subsequently become a tremendous leisure activity resource for the whole of the Oxfordshire region. Although extra infrastructure will probably be required, and this may be of concern to some, the area is already well served by bus and train routes, and thus makes the choice of site a sensible one.

2. Oxford United Football Club of which I am a season holder are in need of a new stadium and headquarters. Indeed the club's very existence is dependent upon them doing so. Time is running out on the arrangement the club has with the owner of the Kassam Stadium. There is not time to begin the search for a new venue. It would be a shame if this action was forced upon the club, especially as the Kidlington site seems to be so optimal. There are plenty of people who are concerned that if the planning permission for the new arena is refused, it would mean the demise of the club. This cannot be allowed to happen."/>
