Comments	<input type="text" value="As a long standing resident of Oxford Road in Kidlington, and indeed an Oxford United supporter, I object to the plans on the basis of the closure of the main road for any period of time on match days. This will have a negative impact on our already hard pressed emergency services, with delays to response times and increased traffic on all the alternative routes particularly FriezeWay. Vehicles from the ambulance station by the airport and fire station in Kidlington use this main route as the quickest way to the JR and into the city. They use this many many times a day, it is the shortest route and any delay can be potentially life threatening. The road is also the main bus route into the City, Parkway and Park& Ride - closing it will cause huge inconvenience to many, disrupting many people who also have things to do, not just attend football matches on a weekend. Why should the club, a commercial organisation, believe that their interests should be placed above all others?"/>
