| Comments | <input type="text" value="I would like to object to this potential development for the following reasons: 1. Traffic congestion - this already a busy area (station, Sainsbury store, traffic between Kidlington and points north, and Oxford and London) and would not expect that stadium related traffic would be restricted to weekends. 2. local railways and roads - would the building of the stadium restrict future improvements in these areas. 3. Parking - I assume that stadium users will park on (already congested) local roads, and that costly parking schemes will be needed for residents. 4. Green Belt - what possible justification is there for building a stadium in precious Green Belt land?"/> |
