Comments	<input type="text" value="I fully support the bid for the new stadium. I live in the OX4 area of the City and the current stadium has never been fit for purpose and is owned by someone who over the years has tried to bring the football club to its knees. I know lots of people in my area who will not set foot in the Kassam for these very reasons. As someone born in the City I have supported Oxford United all of my life and truly believe without the new stadium at the Triangle the future of this great institution is severely threatened. I joined the Armed Services on leaving school and although this meant living outside the City for 27 years it was Oxford United that kept my love for the City burning bright. I brought 3 Scots serving with me to the Milk Cup final in 1986 and they still follow Oxfords results to this day. That is the love and friendship a club like Oxford United can engender. My 3 children proudly wore their Oxford United shirts wherever we were posted and that love is now passed on to their children. My wife's family have lived in Oxford Road Kidlington for over 50 years and we know the vast majority (silent) support the building of a world class stadium in the local area. I will take public transport from OX4 to the matches and if the weather permits intend to cycle as I regularly do to visit my elderly mother in law."/>
