<b>Comments</b>	<input type="text" value="I would like to add my support to this application. I am a second generation Oxford United Supporter, my son is third generation and it is imperative that this institution where mothers/fathers and sons/daughters can build a strong bond, sharing the highs and lows as is the lot of a football supporter. The current stadium has never felt like home, it is a soulless wind tunnel. The chance to build a state of the art stadium in green surroundings, would be a great asset to Oxfordshire. And could be a real home like the Manor Ground in Headington was for many years. Although I now live in Devon, my son and I regularly travel to Oxford for home games and we would love it if we could use public transportation ie the train to arrive right on the doorstep. I would urge that this application is looked upon favourably. Thank you."/>
