Comments	<input type="text" value="I wish to object to the planning application as I am concerned over the inevitable chaos that will ensue due to increased traffic congestion. Not only will parking become a significant issue, impacting our street directly, but it may also escalate to the point where residents are compelled to obtain permits for their own vehicles. The suggestion of closing part or any roads around the area on match days is ludicrous. How will the residents of Water Eaton and Kidlington go about their normal activities? I have no confidence in OUFC building a bridge to enable the team supporters to reach the grounds. I am concerned that promises will be made, but in due time if the stadium gets the go ahead, there will be no funds to honor these promises.

Furthermore, such a closure would have devastating effects on the integrity of the green belt, disrupting its ecological balance and potentially causing irreparable harm to our natural environment."/>
