Comments	<input type="text" value="Fully support the proposal for a new stadium to be built in kidlington. It is nothing but a positive and the club seem to have taken into account all the issues that have arisen to provide Oxfordshire with a first class facility that can support community for generations to come with world class sports facilities, jobs and to longevity of the only professional football club in Oxfordshire. Without this stadium this great club may cease to exist, my husband was a steward at the club for many years. Oxford United has been part of my family for years and with this stadium it can continue for generations with my grandchildren now following the U's."/>
