Comments	<input type="text" value="I believe that it will cause a loss of vital habitat for wildlife and that the traffic will gridlock this side of Oxford's travel for several hours.
I do not believe there is adequate public transport to prevent fans arriving by car and that relying on the park and ride car park will be inadequate while preventing local people from using the car park to travel into Oxford and London.
I believe there will be a lot of overflow parking in Kidlington as a result.
And as such bridges will be need both over to the parkway and over Freize way."/>
