Comments	<input type="text" value="I totally support the proposal to build the new football stadium on the Triangle site. This is not just about football, although there will be a massive benefit to all of the local clubs, but about the social and community benefit. Oxford United in the Community do so many great things around Oxfordshire and support so many vulnerable residents. This is an Oxfordshire project to benefit all our residents. This is one of the most accessible sites in the County for Rail and Bus services. Buses pass the site connecting Oxford, Kidlington, Woodstock, Witney, Bicester and Banbury, not to mention the rural villages to the North of Kidlington. You also have a new cycling network going past the site too. 2 Park and Rides on the doorstep plus access to the A34, A44 and A40 within a very short distance. This makes it so much easier for all fans to get there compared to the Kassam stadium."/>
