Comments	<input type="text" value="I object on the following grounds:
- there is no justification for an exceptional use of green belt space. OUFC is using their own deadline as an ultimatum to local residents and planning officers
- traffic will undoubtedly be significantly worse not just on match days but also when the venue is inevitably used for other events on other days. There is a huge risk of greater congestion, reduced air quality, and the risk of highway accidents. There has already been one cyclist death in the road near Parkway in recent years and this development increases the risk for others
- along with traffic, such a huge development will inevitably lead to harm for the environment which will take decades to recover"/>
