Comments	<input type="text" value="I support this proposal as it will provide opportunities for the whole of Oxfordshire (and further afield) for generations to come to benefit from having the use of a modern stadium people can utilise for football and other activities. The club itself means so much to so many and its future needs to be safeguarded so it can flourish and achieve the potential it has always had. In an age where football clubs such as Oxford are inclusive, and community orientated, now is the time to push on with this stadium. I feel the project has togetherness and unity at its heart as the club looks to secure its future for the benefit of diverse sections of the Oxfordshire (UK) community that make up its fan base. I believe the stadium will be a landmark that new fans in the future will look on and think that building it was a watershed moment in the club's history and secured the club's future and the OUFC community for the long term."/>
