Re: The proposed new football stadium on the 'Triangle Site'

I object very strongly to the application by OUFC to build a football stadium on the "Triangle" site near Oxford Parkway. As Oxford residents in the Parkway area, we are fully aware of the damage that the proposed stadium will inflict on our environment and the way of life. Namely, the already approved and ongoing vast building developments in our area are causing environmental and traffic problems that are not sustainable. The proposed stadium will reduce what remains of our green area and it will make the traffic problem unmanageable.

In our opinion, the football club should continue to use the present Kassam stadium and they should work hard to renew the lease under favourable conditions to the club. It is known that the Oxford residents local to the Kassam stadium are happy to host the stadium and the club.
