I object to the proposal for the site of the new stadium. My major objections that it will result in yet a further incursion into the Green Belt to the north of Oxford and will remove an important gap between north Oxford development and Kidlington. I also think that the 22 metre high stadium will be an inappropriately dominant feature on the outskirts of Oxford.

I also understand that there may be no need for Oxford United to leave its current stadium and that the existing stadium at Blackbird Lets could be developed satisfactorily now that there are plans to re-open the rail branch to Cowley.
