Ref 24/00539/F

As a resident of Kidlington for the last 30 years I **OBJECT** to the building of the proposed stadium at Stratfield Brake.

The stadium will encourage more **MOTOR TRAFFIC**, especially at the nearby roundabouts. I bicycle into Oxford almost daily and the motor traffic has already reached mega-proportions. Building the stadium will make **CYCLING** even more dangerous.

As an ecologist I am very concerned about the effects of the stadium and its associated phenomena on destroying the very necessary **GREENBELT**.

As an ecologist I am greatly dismayed at the continuing drastic decline of what is left of an alarmingly diminishing **NATURE**; building on Stratfield Brake will do nothing but hasten this decline.

We already live in a very noisy environment and Kidlington is not excluded from this. A stadium will obviously contribute even more **NOISE** especially during matches.

Not least, Kidlington **VOTED 2 to 1** against building the stadium. The people have voiced their opinion and any proposal to build the stadium must therefore stop at once.
