## **1. APPLICATION SITE AND DESCRIPTION OF APPROVED DEVELOPMENT**

- 1.1. The application site is situated to the north west of Bicester, north of Middleton Stoney Road and west of Howes Lane and it forms part of the wider NW Bicester Eco Town area within the extent of the site allocated by Policy Bicester 1. The land sits detached from the Western extent of the town and is separated from it by Howes Lane and the Axis J9 employment site (which also forms part of the wider NW Bicester allocation). A private residence called Lovelynych House lies adjacent to the southern site boundary. Outline permission ref: 14/02121/OUT is for up to 1,700 residential dwellings with associated facilities including a retirement village, commercial floorspace, community facilities and primary school. The site is mainly comprised of agricultural land and native species field hedgerows.
- 1.2. The first reserved matters applications for the site accesses off the Middleton Stoney Road/B4030 and Phase 1B (infrastructure for the first 500 dwellings) have been approved and Phase 2A (first 123 dwellings) has been submitted and is under consideration. The Design Code and Masterplan for the site have also been submitted and are still under consideration along with numerous other condition discharge applications and S106 clause discharges.

## **2. CONDITIONS PROPOSED TO BE DISCHARGED**

- 2.1. The application seeks to partially discharge condition 34 of 14/02121/OUT, insofar as it relates to Phases 1A and 1B, which requires the submission of foul drainage strategy prior to commencement. The applicants have provided Drainage Layout details in support of this application.

## **3. RELEVANT PLANNING HISTORY**

- 3.1. The following planning history is considered relevant to the current proposal:

**Application: 14/02121/OUT** Permitted 30 January 2020

OUTLINE - Development to provide up to 1,700 residential dwellings (Class C3), a retirement village (Class C2), flexible commercial floorspace (Classes A1, A2, A3, A4, A5, B1, C1 and D1), social and community facilities (Class D1), land to accommodate one energy centre and land to accommodate one new primary school (up to 2FE) (Class D1). Such development to include provision of strategic landscape, provision of new vehicular, cycle and pedestrian access routes, infrastructure and other operations (including demolition of farm buildings on

Middleton Stoney Road)

Also relevant are:

- 22/03492/NMA – Non-material amendment to conditions of permission 14/02121/OUT - Due to time constraints the applicants sought to meet the deadline for submitting a reserved matter application whilst not triggering the need to provide the masterplan and design code. It was agreed that the first reserved matter could be made for a discrete piece of infrastructure only (e.g. the site accesses) which would not necessitate wider site design details or prejudice the future layout/design. This NMA was granted to allow the rewording of conditions to provide this flexibility/distinction – APPROVED.

#### **4. RESPONSE TO PUBLICITY**

- 4.1 As an application subsequent to an application requiring an EIA this application has been publicised by way of site notices displayed near the site and by advertisement in the local newspaper. The final date for comments was **27 July 2024**, although comments received after this date and before finalising this report have also been taken into account.
- 4.2 No comments have been raised by third parties.

#### **5. RESPONSE TO CONSULTATION**

- 5.1. WARD COUNCILLORS – No comments received to date.
- 5.2. THAMES WATER – Having reviewed the submitted drainage layout plans and details they are satisfied that the condition can be partially discharged.

#### **6. APPRAISAL**

- 6.1. The drainage layout plans have been prepared by qualified engineers to demonstrate how foul water drainage will be dealt with. Thames Water are content with the details provided and confirm that there is capacity in the system for the scheme as shown. The plans are the same as those submitted and approved for the reserved matters for Phase 1B. It is therefore considered that the condition can be partially discharged.
- 6.2. The original application was EIA development. The outline permission was granted in 2020 and is therefore considered to be recent enough and adequate to consider this DISC concerning Foul Drainage. Therefore, the EIA is considered sufficient for

the purpose of considering the information provided for this condition and it has been taken into account in considering this subsequent application.
