

**Application no: 24/01768/DISC**

**Location:** Heyford Park, Camp Road, Upper Heyford, Bicester, OX25 5HD

---

## **Lead Local Flood Authority**

### **Recommendation:**

No objection to discharge of condition

### **Detailed comments:**

Updated information provided in the 7<sup>th</sup> revision of the FRA, and also in emails between the LLFA and applicant, is sufficient for the LLFA to consider that the condition may be discharged. This is based on our requested changes to the calculations being implemented, and clarification of issues including discharge location and flooded volumes.

Any new information which requires alterations to the drainage strategy (e.g. to alter the discharge location) may have to be dealt with through a variation of condition application.

The review of as-built drainage information will be undertaken through the future discharge of condition 31, prior to occupation of the development.
