**Subject:** 24/02514/OUT - Land Opposite Hanwell Fields Recreation Adj To, Dukes Meadow Drive, Banbury, Oxfordshire

Hi Lewis,

I'm having portal issues so here is my response to this one:

Environmental Protection has the following response to this application as presented:

### General:

Prior to the commencement of the development, a Construction Environment Management Plan (CEMP), which shall include details of the measures to be taken to ensure construction works do not adversely affect residential or other sensitive properties on, adjacent to or surrounding the site together with details of the consultation and communication to be carried out with the occupiers of those properties shall be submitted to and approved in writing by the Local Planning Authority. Thereafter the development shall be carried out in accordance with approved CEMP.

### Noise:

Prior to the commencement of the development hereby approved a specialist acoustic consultants report that demonstrates that all habitable rooms within the dwelling and external areas will achieve the noise levels specified in BS8233:2014 (Guidance on sound insulation and noise reduction for buildings) shall be submitted to and approved in writing by the Local Planning Authority. Where acoustic glazing and alternative means of ventilation are required to achieve this standard full details of these elements shall be submitted with the report for approval. Should alternative means of ventilation be required then an overhead report will also be required. Thereafter, and prior to the first occupation of the dwellings affected by this condition, the dwellings shall be insulated and maintained in accordance with the approved details.

### Contaminated Land:

1. No part of the development hereby permitted shall take place until a desk study and site walk over to identify all potential contaminative uses on site, and to inform the conceptual site model has been carried out by a competent person and in accordance with DEFRA and the Environment Agency's "Land Contamination Risk Management (LCRM)" and has been submitted to and approved in writing by the Local Planning Authority. No development shall take place until the Local Planning Authority has given its written approval that it is satisfied that no potential risk from contamination has been identified.

2. If a potential risk from contamination is identified as a result of the work carried out under condition [\*1\*], prior to the commencement of the development hereby permitted, a comprehensive intrusive investigation in order to characterise the type, nature and extent of contamination present, the risks to receptors and to inform the remediation strategy proposals shall be documented as a report undertaken by a competent person and in accordance with DEFRA and the Environment Agency's "Land Contamination Risk Management (LCRM)" and submitted to and approved in writing by the Local Planning Authority. No development shall take place unless the Local Planning Authority has given its written approval that it is satisfied that the risk from contamination has been adequately characterised as required by this condition.

3. If contamination is found by undertaking the work carried out under condition [\*2\*], prior to the commencement of the development hereby permitted, a scheme of remediation and/or monitoring to ensure the site is suitable for its proposed use shall be prepared by a competent person and in accordance with DEFRA and the Environment Agency's "Land Contamination Risk Management (LCRM)" and submitted to and approved in writing by the Local

Planning Authority. No development shall take place until the Local Planning Authority has given its written approval of the scheme of remediation and/or monitoring required by this condition.

4. If remedial works have been identified in condition [\*3\*], the development shall not be occupied until the remedial works have been carried out in accordance with the scheme approved under condition [\*3\*]. A verification report that demonstrates the effectiveness of the remediation carried out must be submitted to and approved in writing by the Local Planning Authority.

**Air Quality:**

Prior to the commencement of the development hereby permitted a detailed air quality impact assessment to identify the impact of the development on local air quality shall be submitted to and approved in writing by the Local Planning Authority. The assessment shall include damage cost calculations where applicable along with detailed mitigation measures proposed by the developer, in order to address any adverse impacts on local air quality. This shall have regard to the Cherwell District Council Air Quality Action Plan and no development shall take place until the Local Planning Authority has given its written approval that it is satisfied that the impact of the development on air quality has been adequately quantified.

**Odour:**

No comments

**Light:**

Prior to the first use of the development hereby approved details of the external [lighting/security lighting/oodlighting] including the design, position, orientation and any screening of the lighting shall be submitted to and approved in writing by the Local Planning Authority. Prior to the first use of the development hereby approved the lighting shall be installed and operated in accordance with the approved scheme at all times thereafter.

If you wish to deviate from the suggested conditions, then this should be discussed with the officer making these comments to ensure the meaning of the condition remains and that the condition is enforceable and reasonable.

Please note my working pattern below, I will only respond on the days appropriate to the email content  
Mon – Weds: Environmental Protection, Thurs – Fri: Health Protection and Compliance

Kind Regards

Neil Whiston BSC, MCIEH
