Comments	<input type="text" value="We strongly object to this application to remove the obligation for the developer of this site to provide allotments, as originally agreed. This amenity can be created at little cost to the developer and would provide real value to residents of the village (possibly including occupants of this development), giving the opportunity for villagers to benefit from the activity and social interaction enabled by allotments, as well as enjoying the fruit, vegetables and flowers that can be grown there. It is difficult to understand why the developer would wish to make such an amendment to the original permission, unless it is with the eventual aim of making a further application in the future to permit additional residential units to be built on the site."/>
