6 January 2025

Dear Ms Taylor

Thank you for your letter of consulting us on the 18<sup>th</sup> December 2024 about the above EIA Scoping Report.

This scoping request relates to a forthcoming ES addendum as part of a section 73 application for the granted outline planning permission for Himley Village (ref: ref.14/02121/OUT). The addendum seeks to alter the quantum and mix of commercial uses within the site. We understand the height and density of the proposed buildings remain unchanged and the development would be kept within the maximum development parameters as previously approved.

As these changes relate to the mix of uses on a smaller proportion of the land the outline consent is for, we would agree that the effects on the historic environment have already been assessed as part of the Himley Village application. We would therefore agree that there is unlikely to be any new significant effects on heritage grounds to warrant its inclusion in the ES addendum.

If you have any queries about any of the above, or would like to discuss anything further, please contact me.

Yours sincerely,

Andrew Scott  
Inspector of Historic Buildings and Areas
