Comments	<input type="text" value="I object to the above proposed development.
The land in question is a much loved and much used green space for the local population to walk, run etc.
The area in question often floods , with the pond at the bottom of Benmead Road being a run off space for excess water. The fields themselves soak up a lot of water. Building on this area would remove all this and would make flooding more likely across the whole area, a real risk for any of the new houses on the proposed estate as well as for existing dwellings.
The Kidlington area has enough new housing planned already."/>
