I object strongly to this development on Kidlington green belt.

This area is an important area of green open space

.

It cannot become a public open space because someone says so when they build houses on it, which will take a centuries old area of precious land and destroy it!

We have two cricket pitches in Kidlington! We are not crying out for cricket pitches.

The 16,000 plus inhabitants of Kidlington are running out of areas which are important for wildlife and mental health.

Without green areas which generate oxygen and coolness Kidlington is overheating. What little wildlife that is left is becoming extinct in this area.

**NO MORE! KIDLINGTON HAS HAD ENOUGH!**

yours faithfully
